# Kinder- und Jugendklinik Universitätsmedizin Rostock

18th ROSTOCK SYMPOSION for Tumor Immunology and Brain Tumor Research in Pediatrics Friday 16 and Sat. 17 Feb. 2024 Hörsaal and Spielsaal Kinder- und Jugendklinik der Universitätsmedizin Rostock Dear Colleagues,

it is my great pleasure to invite you to the 18<sup>th</sup> Rostock Symposion for Tumor Immunology and Brain Tumor Research in Pediatrics.

Contributions from all areas ranging from immunology to brain tumor research, genetics, applied immunotherapy, and oncology, from clinical studies to basic science are welcome, both as 30 min overview presentation or as short communications!

A great number of reknown physicians and scientists from all over the country have already confirmed to give presentations, sharing with us their knowledge and experiences, including newest research data.

The meeting will be in-person, however, participation in virtual mode is planned to be enabled. Due to a lot of great contributors, the program is going to be fantastic!

Of course, again, it will certainly be a very lively event, with much opportunity to communicate in a familiar surrounding – particularly in the very special evening event - and I hope that all of us will have a lot of fun together.

Rostock, November 2023

## **Main Subjects:**

General Immunology

Tumor Immunology

**Experimental Cell Therapy** 

Transplantation Immunology

**Tumors and Viruses** 

**Brain Tumor Models** 

**Brain Tumor Genetics**
